	5 Ticks Standards Mark	<p>The 5 Ticks Standards Mark™ certifies this product meet strict quality, safety, and performance standards.</p>
	Swivel Spout	The Swivel spout provides space, flexibility and ease of use.
	Chrome Plate	A base of copper is first applied followed by a layer of nickel and then finally a hard gloss coating of chromium to achieve a shiny hard wearing finish.
	Electroplated: Gun Metal	Electrical current is used to dissolve components into Lacquer that then adhere to the surface.
	Electroplated: Black	Electrical current is used to dissolve components into Lacquer that then adhere to the surface.
	Electroplated with PVD: Brushed Nickel	Electrical current is used to dissolve components into Lacquer that then adhere to the surface. A thin metal-spray coating in the form of very thin layers is finally applied using PVD process.
	Electroplated with PVD: Brushed Brass	Electrical current is used to dissolve components into Lacquer that then adhere to the surface. A thin metal-spray coating in the form of very thin layers is finally applied using PVD process.
