TECHNICAL DRAWING & INSTALLATION REQUIREMENTS

PRODUCT DIMENSIONS

PREFERRED INSTALLATION LAYOUT

WATER SUPPLY

A single 1/2" BSP (15mm) stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa and a maximum of 1000kPa.

POWER SUPPLY

A standard 10 amp power outlet is required, no further than 1000mm from the underbench unit. The system is supplied with a 1 metre flex cord and plug.

FILTRATION

Billi's range of premium filters utilise BWT's unique Fibron X technology. Billi's filter range provides superior taste, water quality, consistent filter life and peace of mind when it comes to hygiene.

Filter supplied: 994052 (0.2 micron). Replacement filters available: 994051 (5 micron option), 994054 (HSD option), 994055 (XPHSD Fibron XP), 994056 (Sediment only) and 994060 (Micron HF Sediment Only).

CERTIFICATIONS

Every Billi drinking water appliance is manufactured under a certified quality control system. All Billi home range models have been tested and comply with all required standards including: Watermark: WM-021882; HACCP: PE-872-WAT-1-02; ISO 9001:2015, QEC 11627; Tested to ATS5200.105 and AS/NZ 4020; Section J6.6 of the BCA; WELL Cornerstone Member.

WARRANTY

The Billi Home C Range is covered by a comprehensive 2 year warranty on all parts and labour.
