

Billi Home BCS with XL Levered Dispenser

The Home BCS is the latest iteration of multifunction filtered drinking water appliances from Billi. The intersection of genuine innovation and sustainable design, The Home BCS integrates Billi's renowned water-cooling and energy reclaim technologies into a single space-saving under bench control module. Billi's Home BCS is the ultimate inclusion to the modern home.

The XL levered dispenser is streamlined and elegant, offering boiling and chilled output delivered safely and at your own pace simply by operating the position-sensitive levers.

UNDER-BENCH UNITS

Billi Home BCS Unit

CO₂ Cylinder

Installation Requirements

Installation Notes

Electrical

A standard 10 amp power outlet is required, located no further than 1000mm from the underbench unit. The system is supplied with a 1 metre flex cord and plug.

Water

A single 1/2" BSP (15mm) stop-tap with a male thread should be installed in an easily accessible position. Water supply must be microbiologically safe to drink, with a minimum dynamic water pressure of 250kPa and a maximum of 1000kPa.

Pressure Valve

Integrated 500kPa pressure limiting and dual check valve is pre-installed to the unit inlet.

CO₂ MSDS

The CO₂ gas cylinder supplied must be secured in a suitable location. Each cylinder contains 1100g of CO₂ and should be installed in a well ventilated area. Each cylinder will provide between 200-350L of sparkling water depending on the unit settings. The MSDS is available on www.billi.com.au for a complete list of specifications and warnings. Replacement gas cylinders are available from Billi. CO₂ Cylinder - single 996911 or double 996912.

Stone Benches

Billi has a no-cut policy regarding all stone benches in compliance with regulations. The safety of our team and customers remains Billi's top priority.

Ventilation

No joinery ventilation or accessories are required for this Billi product (water cooled technology and/or no waste heat).

Filtration - Most Recommended Replacement Filters

Billi range of premium filters utilize BWT's unique FibronX® technology, providing superior taste, water quality, filter life longevity and peace of mind when it comes to hygiene.

994052 - (0.2 micron)

Supplied standard.
Residential or Critical Care sites.

994051 - (5.0 micron)

Commercial & high volume sites.

*Drawings are for guidance during Specification, refer to Installation requirements for final install.
