SlateForma™ SHOWER TRAY

900x900 | 1000x1000 | 900x1200 | 1000x1200 | 1000x1400 | 1000x1600mm

TILE ALTERNATIVE

SlateForma™ is a one piece composite that provides an easy clean, grout free alternative to a tiled shower. The low profile 25mm tray is warm to the touch and creates a near seamless transition from bathroom to shower. SlateForma trays can be combined with any Athena door set.

FORM & FUNCTION

Created to replicate natural slate stone texture, the shower tray has a protective gel coat available in three nature inspired colours* - complete with a colour matched Athena waste water cover - to complement any bathroom.

PRIME POSITION

Available in a wide range of sizes to suit New Zealand homes, the SlateForma square trays include a corner waste while the rectangular sizes feature a centre-back positioned waste. Both options ensure discreet yet optimal drainage with a gentle fall to the Easy Clean waste outlet.

QUALITY ASSURED

At Athena Bathrooms we quality check every SlateForma tray to ensure they meet our strict standards. Upstands are custom fitted at our factory to suit your installation prior to shipping; the final touch.

WHEN ORDERING:

Complete your chosen product code below by specifying one of these colours in the blank space within the code __
Use **CH** for Chalk, **ST** for Stone, **AN** for Anthracite

Designed in New Zealand.

Full specifications at athena.co.nz Colours shown are a printed guide only.

*While the supplied colour is always constant, the final appearance of the colour can vary.
