ES 2200

ES 2200

With the ES 2200 you have the largest fire in our range, at a stunning 2.2 metres in length. As impressive as it is, you are still in control of every aspect of the fire, from the speed, colour and brightness of the entrancing flames, to the enchanting crackling sounds of burning logs.

Features

- 548 x 2230 x 296mm (dimensions H x W x D)
- Wall mountable (supplied with brackets)
- 6 pre-set TriLight themes (Autumn Campfire, Emberglow, Inferno, Noir, Fire & Ice, Nebular)
- Multi-option RGB flame and fuel bed colours with user preset options
- Optimised heater position & minimal visible vents
- 7 day programmable timer with adaptive smart heating
- Open door/window detection

- 3 independently controlled lighting effects
  Flames – colour & brightness
  Under fuel bed – colour & brightness
  Above fuel bed – colour & brightness
- Heat output – 1.8kW (3 heating modes with cool blow function)
- Convenient multiple control options (manual or remote control)
- Ultra-realistic glowing fuel bed with burning embers and customisable log layout
- Easy to install

Setting the scene

Our approach is to create beautiful, inspiring appliances that change the perception of a traditional electric fire.

Our unique TriLight technology provides multi-angled, fully customisable dynamic LED lighting to create multiple unique colour and tonal combinations to the flames and fuel bed. Each can work in harmony with one another or independently, creating one-of-a-kind combinations and an adaptive atmosphere, all at the touch of a button.

To provide an insight into the possibilities, all Rinnai ES Series electric range fires come with 6 programmed themes to highlight some of the fascinating lighting combinations that can be created. These are:

Autumn Campfire

Ember Glow

Inferno

Noir

Fire & ice

Nebula
Instant heat at your fingertips

Part of the Rinnai design ethos is to ensure that all appliances offer clear and simple controllability. Whilst functionality may have advanced and become more dynamic, we believe that intuitive interaction is paramount.

The Rinnai ES fires can be conveniently controlled in two ways:

- Manually using the multi-function panel discretely located on the appliance

- With the intuitive remote control handset

The quickstart heat option allows you to select low heat, high heat, or cool blow at the touch of a button. Adaptive smart heating allows you to schedule the exact time and date you wish to heat your room, automatically adjusting the environment to reach and maintain the desired temperature.
