Elevate your bathroom experience with the Elementi Calora Heated Towel Rail—a perfect blend of modern style and practical luxury. Ideal for compact spaces, the single-bar stackable design provides an elegant solution for warming towels without occupying excessive space. With a range of stunning finishes to select from, including chrome, brushed nickel, brushed brass, brushed metal black, and black brushed chocolate, this towel rail can seamlessly integrate into any bathroom design, whether classic or contemporary.

Constructed from 304 grade stainless steel, the Elementi Calora towel rail is long-lasting and corrosion-resistant, ensuring that it will last for a long time. Protected with an IP55 (Ingress Protection) rating, it is dust and water protected, hence a safe choice for your bathroom, even when wet.

The towel rail has hidden wiring, providing a clean and sleek installation that complements the overall look of your environment. With universal left/right wiring, the rail is flexible in terms of installation, making it compatible with your bathroom layout and your desired style.

For your peace of mind, Elementi Calora Heated Towel Rail is offered with 5-year guarantee for colour finishes and 10-year guarantee for stainless steel finishes so you can be assured of its long performance and durability.

Enjoy the ultimate combination of luxury, comfort, and longevity with the Elementi Calora Heated Towel Rail, a stunning addition to your modern bathroom. Enjoy the warmth and elegance of a perfectly heated towel each time you step out of the shower. Take home today the Elementi Calora Heated Towel Rail.
