BATHROOMWARE

Roxy

A Chesters Exclusive

Roxy Features

Designed & Made in NZ

St Michel has been designing and manufacturing bathroom furniture in NZ for over 30 Years. The Roxy Range is created from Environmental Choice certified board made from sustainable wood products grown here in NZ.

Aqua Edge®

Superior Edge Protection where you need it.

Water Resistant / Targeted aqua sealing technology create a highly water resistant edge where it's most needed by protecting and sealing exposed edges that are most likely to come into contact with water - such as doors, drawers, and side exterior panels.

Impact Protection / Panel Edging is the most common area susceptible to chipping damage and consequentially the place moisture is likely to penetrate - Aqua Edge® is highly impact resistant and is therefore more water resistant than paint which is vulnerable to chipping on exposed edges.

Softclose

New generation synchronised technology delivers a smooth softclose action that is standard on Roxy Drawer only models. Roxy Door/Drawer models supplied with simple softclose is standard.

Ceramic Basins

Age old skill has gone into the making of this fine range of hand crafted ceramic tops individually selected by St Michel from specialist suppliers around the world.

Each ceramic basin is unique - being both hand crafted and individually customised. The hygienically smooth surface glaze is wear and scratch resistant. Because ceramic is fired at high temperatures some visual distortions will be evident, but we feel this adds to the natural beauty of the product.

Cherry Pie® Benchtop

With Cherry Pie 20mm premium solid benchtops, the look and lustre of natural stone runs right through the material.

This single-material seamlessness allows the crafting of attractive edges; it also enables commercial polishing and repairs if required. Made from acrylic resin that's blended with natural materials, Cherry Pie benchtops are durable and non-porous, so they're hygienic and easy to clean.
