

STIEBEL ELTRON

Goose Taps

A stylish goose neck tap that is compatible with our SNU Plus, available in 3 colours

Design-Kollektion

GOOSE NECK TAP

Stylish Convenience at Your Fingertips

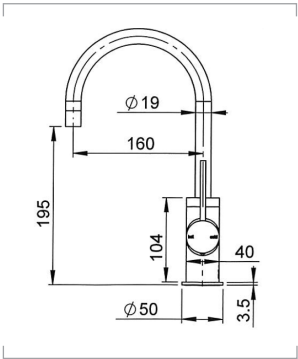

The Design-Kollektion 160mm Gooseneck mixer combines modern design with precision functionality, delivering hot and cold water to a single fixture, such as a kitchen sink. The curved spout provides ample clearance, while the side lever allows for smooth, effortless control. Available in Matte Black, Brushed Gold, and Brushed Nickel, this tap integrates seamlessly into various interiors. Designed exclusively for the SNU Plus open-vented storage water heater, it provides readily available hot water when needed.
